Central Regional Health School

https://crhs.school.nz/

# of unique students – 416
Type of provider – School, public, special institution
Primary distance modality – Asynchronous

Background

The Central Regional Health School was established in 2000 as a 'special school.' It only serves students who have an (1) active treatment programme for their health condition or (2) be engaged in a health funded mental health programme with an active therapeutic programme. The Central Regional Health School serves students in the lower half of the North Island covered by Capital and Coast, Hutt Valley, Wairarapa, MidCentral, Whanganui and Hawke's Bay District Health Boards. The Central Regional Health School also provides the education programme for students at the Oranga Tamariki residences, Te Au rere a te Tonga in Palmerston North and Epuni in Lower Hutt.

Activity 2022

According to the *Education Counts* website, the school enrolment was described as so.

Level	Total
Level 1	1
Level 2	0
Level 3	0
Level 4	0
Level 5	0
Level 6	0
Level 7	0
Year 8	0
Year 9	0
Year 10	0
Year 11	4
Year 12	6
Year 13+	11
Total	22

These figures included 9 students of Māori descent enrolled.

In terms of the actual nature of enrolment, the Central Regional Health School reported that in the 2022 school year the school enrolled a total of 416 unique students. Their lowest weekly enrolment was 261 unique students, and their highest weekly enrolment was 309 unique students.

The Central Regional Health School indicated that 383 of those 416 unique students were dual enrolled in their home school. Of these 373 students the home school was a public school for 363 students, a private school for 8 students, and Te Kura for 2 students. Additionally, there were 152 students enrolled in Te Kura on a supplemental basis (i.e., enrolled in one or more courses, but not on a full-time basis). These figures also include 349 unique students who were enrolled in their Community Health programming.

Finally, there were 33 unique students who were not dual enrolled in their home school, but who were directly enrolled in the Central Regional Health School.

To summarise:

total enrolment: 416 unique students

1. lowest weekly enrolment: 261 unique students
2. highest weekly enrolment: 309 unique students

enrolment based on programming

3. dual enrolled in a home school: 383 unique students
4. dual enrolled in Te Kura: 152 unique students
5. directly enrolled in the Central Regional Health School: 33 unique students
6. enrolled in community health: 349 unique students
