# of unique students – ~400
Type of provider – School, public, state school
Primary distance modality – Synchronous

Background

Rosmini College is a Catholic Boys' School founded by the Rosminian order serving students on Auckland's North Shore. The school is not specifically a distance learning provider (i.e., the school is a brick-and-mortar state school). However, Rosmini College does offer some of its own distance learning programming.

Updates

One program that was excluded from the previous profile was the South African-New Zealand (SANZ) project, which began in 2017. The project provides opportunities for students at Rosmini College to interact through synchronous tools with students at a school in South Africa for 30 minutes a week. The goals of the programme are focused on communication and interpersonal skills.
